*Musical Concert In aid of Buttercrambe Church*

### Here we are again with a similar formula of pleasant music and light hearted readings/anecdotes.....

#### Decent supper too

Please continue your support of this lovely evening in splendid surroundings. For 2 reasons. First and foremost, to enjoy yourselves. And in doing so, you will, secondly, be helping to keep the little gem of a church open in the tiny village. With church membership dwindling down to a handful (One hand, that is), paying a Quota (like church-rates) of ~£3,000 was impossible so we went for closure last year. This is in many C of E stages, first of which was an open meeting in the church and surprised me by 20+ people turning up. Outcome being that villagers undertook to keep the place open – and they have succeeded. The little that the church needs by way of upkeep is locally met by a few villagers, with 2 or 3 generous benefactors benignly keeping watch in the wings. Not only just keeping watch either. . .

There are various ideas floated to raise the little required to keep the door open and the roof on; there was scarcely time to inaugurate some of the more ambitious ones during the last year. But watch out for announcements, if you wish to be deleted from the Group Email address, just tell me. Conversely, if you have a friend who might like to be included, ask them to email me with such a request. Hardly likely to fill any junk folder but maybe there could be short shots of news 2 or 3 times/year.
